

Web Hosting

We are able to provide what we think is simply the best in shared hosting services in the market today. A bold statement - but we can back it up.

In short, both of the plans we offer (below) give you a full set of features -- on par with anyone in the industry -- but on top of that our technical support team is simply unparalleled. We guarantee answers to your hosting support questions within 2 hours; 24 hours a day 7 days a week, our tech support team is there to support you.

All of this can be had for only US\$ 60 per year (for the basic plan).

You see, unlike many of our competitors, we're not interested in undercharging you for design and programming services just to nickel and dime you to death with periodic fees on related services, like hosting. Shop around. Compare prices. You'll be back....

Here's a quick comparison of the features in the two plans we offer.

Strickler & Prieto LLP is proud to announce an affiliation with Blue Host hosting services. Blue Host provides high quality, reliable hosting solutions at prices anyone can afford using a Network Operations Center that is staffed 24 hours a day, 7 days a week. Trained System Administrators constantly monitor all incoming traffic and individual server resources to ensure your sites never gets lost in the crowd. No matter whether your sites employ FrontPage, Miva, Cold Fusion, PHP, or Java Servlets to keep your page in top shape, specialists will walk you through its instructions, step-by-step. Our first priority is to ensure that your Internet presence stays online 24 hours a day. We are dedicated to your company's and your client's successes, and we take great pride in knowing that we can help better your business by offering you the excellent services that you need through this great partnership.
